

Mohamed Kharashy Junior Frontend Developer

address: King Faisal street Giza, Egypt · email: hi@dev-mkr.me · portfolio website: <http://dev-mkr.me>

EXPERIENCE

Junior front-end developer at Dexi June 2023 - present

An all-in-one dental practice management system that automates the most important logistics, reduces staff's margin for error, and puts fingers on the pulse of your operations.

Responsibilities:

- Collaborate with the team to implement new features and enhance existing ones.
- Write clean, efficient, and maintainable code using Reactjs and more.
- Troubleshoot and debug frontend issues, identify and fix bugs

Junior front-end developer at Zamalek SC Oct 2022 - Feb 2023

Zamalek Sporting Club is an Egyptian sports club based in Giza. It is one of the most successful football clubs in Africa and the Middle East and was the most titled club in African tournaments in the 20th century.

Responsibilities:

- Created the club's official website.
- Collaborate with the design team and the backend team to meet project requirements and goals.
- designed the mobile UI

SELECTED PROJECTS

React-admin-dashboard

react-admin-dashboard is an open-source admin dashboard. a powerful tool for visualizing, managing, and analyzing data. With a clean and intuitive design, it allows users to get a comprehensive view of their data at a glance. Built with: Typescript, reactjs with vite, zustand, apexCharts, tailwindcss, swr, axios, react-hook-form, and more.
