About

Talanted Frontend developer. Coding addict, JavaScript enthusiast, UI lover. Trying hard to make clean, responsive UI interfaces and achieve Ui patterns that maximize code reusability and scalability, I'm curious about exploring new technologies that create a happy user and developer experience; I do so by keeping my eyes on the new tools, reading articles, and watching videos. I enjoy writing technical things ✍️ on my social media accounts.

skills

Development

HTML, CSS, Git/Github, javaScript(es6+), typeScript, Reactjs, React hooks, Nextjs, zustand, Redux toolkit, Tailwind CSS, Sass, Jest, React testing library, Fetch API, Axios, GraphQL.

Design
Figma, Adobe xd, photoshop.

Collaborative
notion, slack etc.

Experience

Zamalek SC

Oct 2022 - present

I created the whole client side for Zamalek Sporting Club's official website, commonly referred to as Zamalek, an Egyptian sports club based in Giza. It is one of the most successful football clubs in Africa and the Middle East and was the most titled club in African tournaments in the 20th century. The club is mainly known for its professional football team, which plays in the Egyptian Premier League, the top tier of the Egyptian football league system.

Responsibilities:

- Work closely with design team and the backend team to meet project requirements, goals, and desired functionality
- Manage website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.
- designed the mobile UI

stack: Nextjs, tailwindcss, swr

The website is still under construction. See the development version here.
