About

Over 1.5+ years of learning, building, and implementing in Frontend development. Coding addict, JavaScript enthusiast, UI lover. Trying hard to make clean, responsive UI interfaces and achieve Ui patterns that maximize code reusability and scalability; I do so by keeping my eyes on the new tools, reading articles, and watching videos. I enjoy writing technical things ✍️ on my social media accounts.

Education

Cairo University
BS From faculty of commerce
2020 - 2024 (Not attending)

## Military state

Exempted

Skills

Development
HTML, CSS, Git/Github, javaScript(es6+), Reactjs, React hooks, Redux, Tailwind CSS, Sass, Fetch API, Axios, GraphQL.

Design
Figma, Adobe xd, Sketch.

Collaborative
notion, slack etc.

Projects

Focus Hub
Live demo Source code
Jul 2022 - present
